

Locket Photo Guide

STEP 1: PRINT YOUR PHOTO

Print your chosen photo at a size of 2 x 2 cm. For best results and long-lasting quality, we recommend using 180gsm–400gsm paper.

STEP 2: PRINT THE SIZE GUIDE

Set your printer page scale to 100%, then print our size guide onto standard A4 paper to ensure accurate sizing.

STEP 3: CUT OUT YOUR LOCKET SHAPE

Cut out the locket shape from the size guide. Place it over your printed photo, trace the outline, and carefully cut around it to get the perfect fit.

STEP 4: INSERT YOUR PHOTO

Open your locket and place the trimmed photo inside. Make sure the photo edges sit securely beneath the small internal brackets.
